

- ☐ Ajax : Ajax is asynchronous javascript requests.
- ☐ Advantages of react:
 - ☐ A single js file can be downloaded and all rendering will happen without reloading page.
- ☐ Change content of activate file in virtualenv to:

```
source (find . -name activate.fish)
clear
```

- ☐ Trailing slash observations
 - ☐ Don't apply trailing slash in urls.py
 - ☐ When using XMLHttpResponse, apply trailing slash.
 - ☐ When creating POST form in html, apply trailing slash. 2:36
